September 2021 – June 2025

- Cumulative GPA: 97.76/100

PROJECTS AND TEAMS

Intro to Mechanical Engineering Car Design Project | Cornell University

Fall 2025

- Designed a car using given parameters for materials and budget that had to balance both speed and torque
- Utilized Fusion360 to design both the chassis and a cover to secure all electrics within the car
- Competed in a competition against other classmates in which the car ranked highly for the amount it could pull in relation to its own weight

Mamaroneck High School Robotics Program | Mamaroneck, NY

September 2021 – May 2025

President, FTC Robotics Team & Underwater Robotics Team

- Founded and led the Underwater Robotics Team in designing a custom PCB (Printed Circuit Board), building and coding all software (C, C++, Rust), and designing and fabricating an ROV using Fusion360 for the yearly competition
- Led the FTC team's software division, creating autonomous navigation code using Road Runner that prioritized consistency, speed and number of completed tasks
- Competed at MATE Pennsylvania Regional ROV Competition (3x) and FTC NY-Excelsior Qualifier (4x), winning Design Awards (3x) and a Marketing Award

TECHNICAL SKILLS

Design & Manufacturing: Fusion360 (Design & CNC Toolpath Generation), Orca Slicer (Additive Manufacturing/3D Printing), KiCAD

Programming: Rust, C++, Java, Python, C, HTML, CSS

Tools & Software: VSCode, Wireshark

PROFESSIONAL EXPERIENCE

Larchmont Yacht Club Sailing Program | Larchmont, NY

Summer 2024, 2025, and 2026
